\$10,000 apportioned and the \$4,387, the amount of the contracts. But this is not so. The land officials at Washington may that the whole \$10,000 to. actually turned back into the treasary, except the sum of \$132.92, actually paid out. So when the contracting surveyor's accounts are examined by the surveyor general and general land office and probably re-examined by both several times, the poor surveyor, who has now been out of his money for over three years, must wait for four or five years till the secretary of the treasury makes application to congrees for this claim and congress, in months or a year later the claim s paid: provided the surveyor has not died of etacvation or old age in the owing to practically the whole make amount apportioned for 1890 having Acode for You been turned back into the treasury the secretary of the interior cut of Charce, D cut can FA

the secretary of the interior cut off New Mexico, giving it to other states or levillable where the surveyor gen eral used up sli that was apportioned to him and fougly eaflest for more. So in 1908 only \$8,000 was apportioned to New Mexico; and of this amount contracts were let for only \$3,405,75, and only \$55 has been paid out by the commissioner. So that it might be used that the whole \$5,000 has practically been turned back into the treas. or territories where the surveyor gencally been turned back into the treasury, and the poor surveyors who hav now waited nearly two years for their pay will have to wait probably three four or five years for it, if they get What is still worms, the whole \$8,000

for 1900 having practically been turned back into the treasury, the secretary may cut the appropriation for the next and anceceding years to \$5,000 or \$3,000, or cut it off alto gether, particularly if the present sur reyor general rotains his office. year 1898 shows about the same. But the half has not been Take up the matter of private land claim surveys. Where millions upon willions of acres of private land

grants have been approved by the court of private land claims or confirmed by congress and are escaping all taxation for the territory, county, schools and city because not surveyed the record in even worse. In 1898 the amount apportioned for surveys of amount apportioned for surveys of Espanoia and other points in the in-private land claims in New Mexico terests of the wholesale and retail was \$15,000, contracts let, \$4,709.00, china establishment of A. B. McGafand nearly all was turned back into fey & Co. the treasury. In 1899 there were apportioned \$15,000; contracts let, \$5, 585.75 and nearly all turned back into the treasury. In 1900 there was a portlened \$10,000; contracts let. \$1. \$85.36, and nearly all over \$14.000 was turned back into the treasur-Owing to thus fact the amount appear tioned for 1901 was \$10,000 a loss of \$5,000 certain to the territory tracts let that year, \$4,725, turned back into the treasury. present surveyor general has cause! Now Mexico to lose \$50,000 that should have been expended in su veys of public lands, private fand claims and mineral surveys and seas thomsands of more taxes could have grants and mines. What shall be the outcome of 1992, on which the Washingten officials are now proceeding God alone knows. Comparisons are should be heaped mountain high

where it belongs. In Oklahoma, whose active delegate fought for hig appropriations and whose surveyor general expended it. every acre of land has been surveyed leo could got that much more by merely showing that she wanted, needed and would use it. Think of that intoxicates created a disturbance All of Oklahoma lands surveyed Saturday night that cost him \$5 this in six years; New Mexico in fifty-five morning. years has not half its lands surveyed In Oklahema 2,000,000 acres Klow. Editors Citizen.
One of the most distinguished offi ers in the United States army Frank D. Baldwin. He entered the volunteer service in 1861 from Michi-gan as a second lieutenant and was discharged as captain in 1865, after the war ended. In 1866 he was made a second lieutenant and immediately after a first lieutenant in the regular Berving as lieutenant for abo hirtoon years in the Nineteenth, Thi seventh and Fifth infantry he was nade a captain in 1879. In this rank years, when he was promoted to ma-jor in 1898. He was lately appointed colonel of infantry in the regular army. During the Spanish-American war he was made a lientenant colonel

and inspector general of volunteers. and at last accounts was on service in be Philippines. Haldwin has a record for heroisn ourgassed by few, if any of his old ourgades of the volunteer and regular armies in the civil and Indian-wars of our country. He wears the nedal of honor voted by congress and won the right to more than one. He ook with his own hands the colors of confederate regiment at Peach Tree reek. In 1863 he held with less than 100 men a stockade for five hours against a brigade of 5,000 confedertes under General Wheeler. After several assaults by cavalry and in-fantry the stockade was battered down by artillery. Haldwin, with what remained of his squad, fell taxo the hands of the enemy. Edward ?! Clarke, in the Inter-Ocean, is anthor-ity for this little story: Baldwin on ie occasion volunteered to lead

impossible." General Miles was then command and said: "Nothing mpossible to the man who held tockade at Stone River." SAINT RETURNS.

Day in Eastern New Mexico. Last night J. E. Saint drove in from a week's trip out on the proposed line or the Hock Island royd. tance is a fraction over 117 miles from the Capital City and the country through which the new railroad will run is considered one of the best in and the greatest grade in seventy miles is not more than one and onefourth per cent. The surveyors will return to the corl fields, which are about eight miles earl of San Pedro,

Senator Andrews of Pennsylvania has written Secretary Saint of his intention of returning to New Mexico next work. He made a trip over the route just surveyed a few weeks mers and a number of the directors. They were traveling in carriages from

Santa Rosa to El Paso. It is learned that the gradies contrectors on the new roads are having a deal of trouble this cummer owing to the scarcity of inhorers. They say a couple of hundred workmen could find plenty of work if they would apply for it. Notwithstanding this fact, the contractors are making ingly good progress with their present forces

Mrs. Mery Finch of Bland is in the city. She will place her three children in the public schools here. She reports mining more encouraging mond drill will be placed in the Star mine in a few weeks. Mrs. Finch has
